BETWEEN DESIGN, TECHNIQUE
AND FUNCTIONALITY, DESIGNED
TO LAST

Axolight manufactures its products by processing metals, fabrics, and glass first and foremost, with special attention to aesthetics, light quality and, last but not least, acoustic performance. More and more Axolight products are made with recycled, and recyclable materials to maximize compliance with environmental criteria.

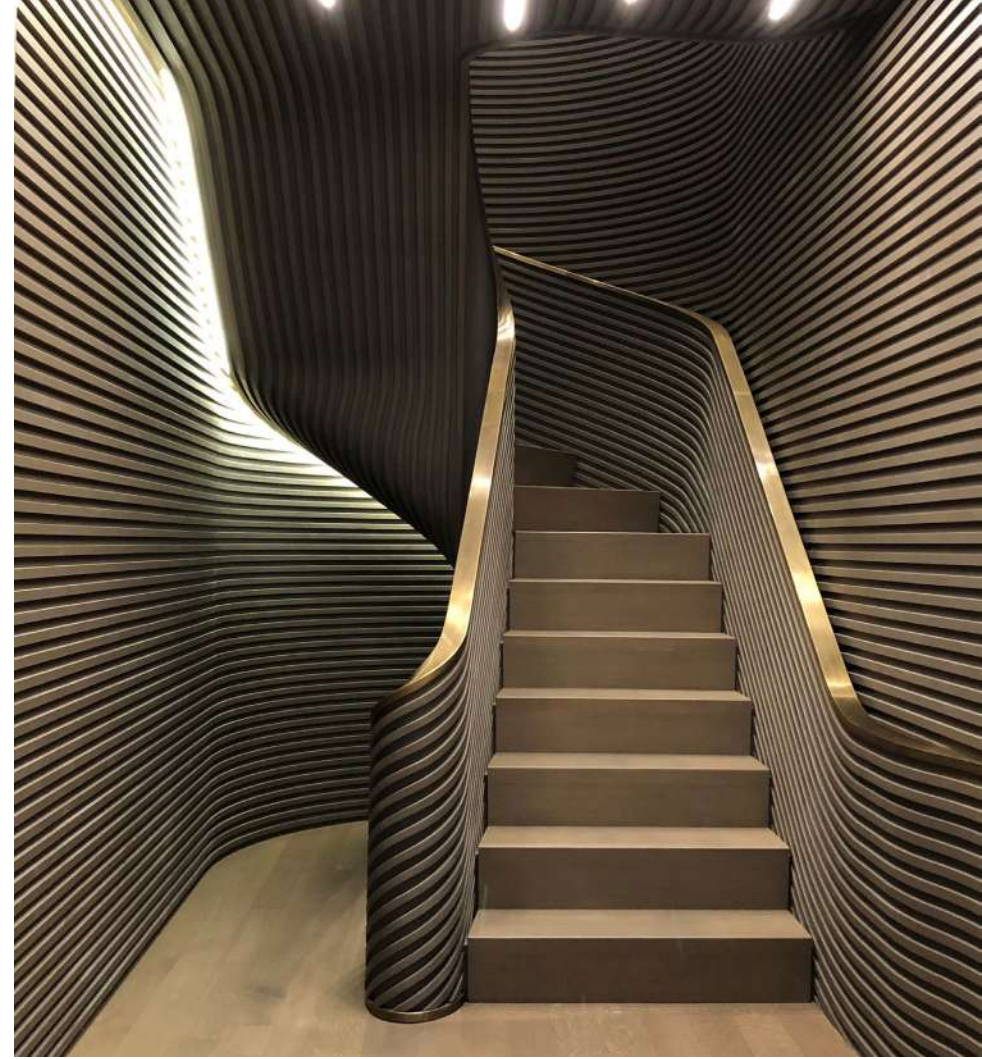

Cenacchi International was founded in 2003 in Bologna on the initiative of Carl Gherardi and Eugenia Cenacchi, who, thanks to the experience gained in the family business that had already been operating since the 1980s in very high prestige furnishing, decided to specialize in custom supplies for important international clients with the highest level of requirements.

Cenacchi has since concentrated on the production and installation of luxury furniture for stores, showrooms, offices, hotels and prestigious homes worldwide. The furnishings are all entirely custom-made, in collaboration with architects and designers often commissioned by clients, while maintaining in-house all engineering and product development. The company today has a strong reputation for the very high quality of its products, for impeccable customer service and for the excellent technical capabilities it is able to provide, all of which are essential to successfully operating in portions of the market based on exclusivity.

Binova

MITON
CUCINE

Cubo Design boasts 20 years of experience in the modular kitchen sector. The result of the experience of founder Antonio Arangiario, who has been operating for more than forty years in the specific sector, the company continues to gain market shares, in Italy and abroad, succeeding in establishing itself as a key player thanks to the quality of its products, innovative design and excellent delivery and installation service.

The group operates through the brand Binova, that has for years represented excellence in the high-end kitchen sector, with the brand Miton Cucine, which covers medium-high market segments. Cubo Design's production is a 25, 000 sq. m. hyper-technological hub, among the first in the industry to be designed according to the Impresa 4.0 concept. Technologically advanced and intercommunicating machinery, subjected to the continuous control of specialized skilled labor, enables the reception and processing of customer requests in a very short time, always guaranteeing excellent service and very high quality standards.

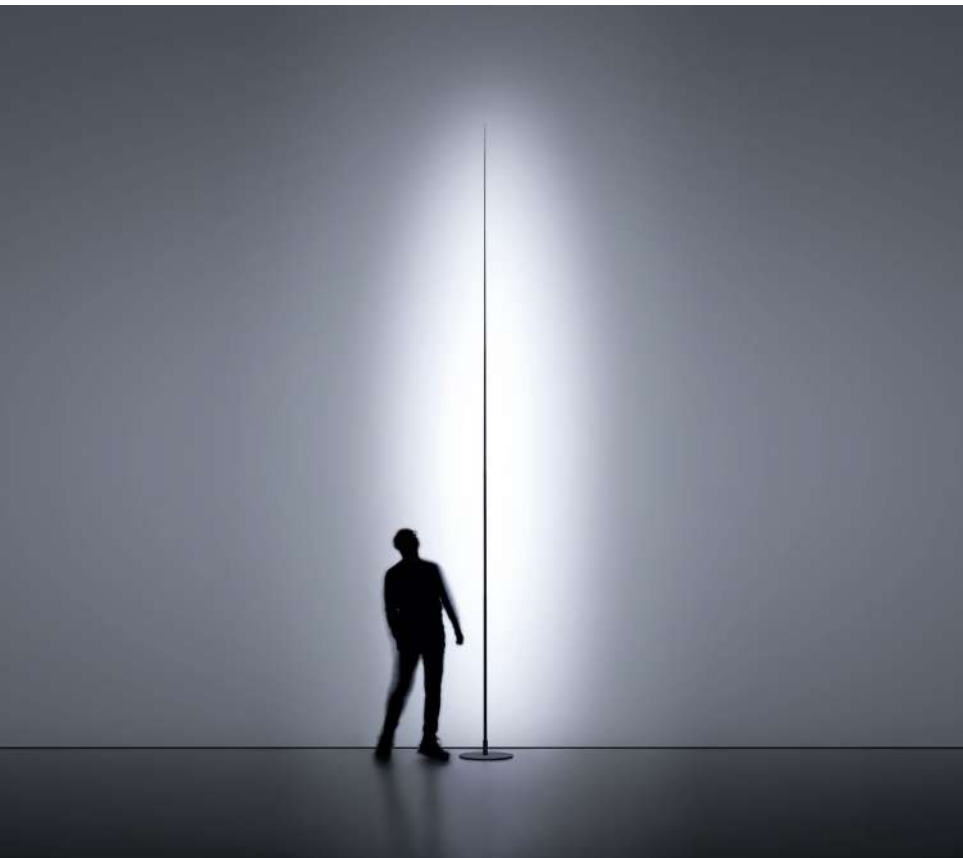

davide groppi

Starting from a small workshop in the historic center of Piacenza, Davide Groppi has been inventing and producing extremely innovative lamps for over 40 years.

Today Davide Groppi is - worldwide - synonymous with creativity, originality, the highest quality of light, and a wonderful design that is increasingly recognizable for its uniqueness. Davide Groppi's lamps are created, precisely, from the need to give shape to peculiar needs and meanings, inspired by art, sometimes by magic and jest, with a very rare craftsmanship in their making.

With a precise style and identity, Meridiani always offers new sources of inspiration and spaces for personal interpretation, combining craftsmanship, technical expertise, deep knowledge of materials, techniques and manual procedures to give life to high-class collections.

Andrea Parisio, art director and designer since the company's founding, coordinates the brand image, the design of corporate spaces and exposition environments.

Modar, founded in 1971 by Dante Malagola, specializes in the design and the subsequent production of furnishings for upscale luxury stores, residences, hotels and offices.

A SUCCESSFUL EXAMPLE OF SYNERGY BETWEEN DESIGN AND INDUSTRY

Luxury Boutique

Luxury Boutique

Over the course of 50 years it has built more than 5,000 stores in the most important cities in Europe, America, Asia and Oceania. Since its inception, it has collaborated with some of the most brilliant architects and designers, such as, among others, Toyo Ito, Norman Foster, Jean-Michel Wilmotte, Antonio Citterio, Duccio Grassi, Vudafieri Saverino, Park Associati, India Mahadavi and David Chipperfield, all creative minds who pave the way for new concepts while setting new trends, providing a successful example of synergy between design and industry.

saba™

Saba is an all-round feminine brand: it's one of the few companies in the sector to be guided by a woman entrepreneur who has led the company to success by means of a keen creative sensibility and a humanistic approach to business. In every project Saba's mission is to combine the functional aspects of design with the language of poetry and emotion.

“A COLLECTIVE EMBRACE”
