ON THE SEVENTH ITEM OF THE AGENDA OF THE ORDINARY AND EXTRAORDINARY SHAREHOLDERS' MEETING OF ITALIAN DESIGN BRANDS S.P.A. CONVENED FOR 22 APRIL 2024 IN A SINGLE CALL

7. AUTHORIZATION TO THE BOARD OF DIRECTORS TO PURCHASE AND DISPOSE OF TREASURY SHARES PURSUANT TO ARTICLES 2357 AND 2357-TER OF THE ITALIAN CIVIL CODE, SUBJECT TO REVOCATION, TO THE EXTENT NOT USED, OF THE PREVIOUS AUTHORIZATION OF 16 NOVEMBER 2023. RELATED AND CONSEQUENTIAL RESOLUTIONS.

Dear Shareholders,

You have been convened to discuss and resolve on the proposal of the Board of Directors of Italian Design Brands S.p.A. (“**IDB**” or the “**Company**”) for the approval of the authorization to purchase and dispose of treasury shares, pursuant to Articles 2357 and 2357-ter of the Italian Civil Code, Article 132 of Legislative Decree No. 58 of 24 February 1998, as subsequently amended and supplemented (TUF), Article 144-bis of the regulation adopted by Consob resolution No. 11971 of 14 May 1999, as subsequently amended and supplemented (**Issuers Regulation**), in compliance with the provisions of Article 5 of Regulation (EU) 596/2014 on market abuse (**MAR Regulation**), Delegated Regulation (EU) 1052/2016, on the conditions applicable to share buybacks and stabilization measures (**Delegated Regulation**), of the additional EU and national implementing legislation (together with the MAR Regulation and the Delegated Regulation, **Market Abuse Regulations**), and the *pro tempore* permitted market practices in force, as established by the competent supervisory authorities in accordance with Art. 13 of the MAR Regulation (**Permitted Market Practices**).

The present Report of the Board of Directors (**Report of the Board of Directors**), prepared in accordance with Article 125-ter of the TUF and Articles 73 and 84-ter, as well as Schedule 4 of Annex 3A of the Issuers Regulation, explains the reasons behind the request for authorization, as well as the terms and procedures according to which it is intended to proceed with the implementation of the plan for the purchase and disposal of treasury shares.

The resolution submitted for your approval revokes and replaces, for the part not yet executed, the authorization granted to the Board of Directors by the Shareholders' Meeting of 16 November 2023.

It should be noted that on the basis of the previous authorization, until 11 March 2024, 63,926 treasury shares have been purchased; on the other hand, no acts of disposition have been carried out on the purchased treasury shares.

1. Reasons for requesting authorization to purchase and dispose of Treasury Shares

The Board of Directors submits to the Shareholders' Meeting a request for authorization to conduct transactions to purchase and dispose of the Company's ordinary shares in compliance with the Market Abuse Regulations and Permitted Market Practices in order to:

- (i) have a portfolio of treasury shares to be used for transactions consistent with the Company's strategic development lines or as part of agreements with strategic partners including, but not limited to, transactions involving the disposal and/or exchange, swap, exchange, contribution, transfer or other act that includes the use of treasury shares for the acquisition or disposal of shareholdings or share packages or other extraordinary finance transactions;
- (ii) use the treasury shares for market liquidity supportive transactions, in order to facilitate trading in the securities themselves at times of low market liquidity and to facilitate smooth trading, in accordance with the provisions of the Market Abuse Regulations and Permitted Market Practices;
- (iii) allocate (all or part of) treasury shares, at the discretion of the Board of Directors, for the implementation of the Company's share-based incentive plans for directors and/or employees vested with key functions of the Company, including the "Performance Shares Italian Design Brands 2024/2029 Plan."

2. Maximum number, category and par value of shares to which the authorization refers

The Board of Directors requests the Shareholders' Meeting to authorize a plan to purchase and dispose of, on one or more occasions, even on a revolving basis, ordinary shares of the Company with no indication of par value, in an amount freely determinable by the Board of Directors and up to a maximum number equal to no. 2,000,000, it being understood that the number of ordinary shares held from time to time in the portfolio by the Company and its subsidiaries may not in any case exceed the maximum number permitted by law (as of today represented by a number of shares not exceeding 20% of the share capital), to be determined also in accordance with the legal and regulatory provisions in force from time to time and the existing share capital at the time of each purchase (including also the result of the resolution and execution of capital increases and/or reductions during the term of the authorization).

3. Information useful in assessing compliance with the maximum purchase limit to which the authorization refers

As of the date of this Report of the Board of Directors, the subscribed and fully paid-up share capital of the Company is equal to EUR 26,926,298, represented by no. 26,926,298 ordinary shares with no indication of par value.

As of the date of this Report of the Board of Directors, the Company holds n. 63,926 treasury shares and the companies included in the Company's consolidation scope do not hold IDB's shares.

It should be recalled that, pursuant to Article 2357, first paragraph of the Italian Civil Code, the purchase of treasury shares is permitted within the limits of distributable profits and available reserves resulting from the last duly approved yearly financial statements, taking also into account any unavailability restrictions that have subsequently arisen and up to the date of the relevant resolution. The amount of available reserves and distributable profits, as well as the verification of the information useful for the purposes of assessing compliance with the maximum purchase limit to which the authorization refers, in any case in compliance with the provisions of law and regulations in force, will be subject to verification from time to time at the time of purchase.

It should be noted that after the exercise of the requested authorization and the consequent purchase of treasury shares, the Company will establish a reserve called "negative reserve for treasury shares in portfolio" (for the amount equal to the price paid) through the use of distributable profits and/or available reserves. The available items that will be used to purchase treasury shares will remain on the balance sheet in their original allocation but will become unavailable to the extent that they are used to make the purchase of treasury shares.

4. Duration for which the authorization is required

Authorization for purchase is requested for the maximum duration allowed by Article 2357, second paragraph of the Italian Civil Code, i.e., 18 (eighteen) months from the date of authorization by the Shareholders' Meeting.

Authorization for the sale of any treasury shares that will be purchased is requested without time limits.

5. Minimum and maximum consideration

The Board of Directors proposes that the purchase and disposal price of treasury shares be set as follows from time to time for each trading day:

- (i) the purchase price of each share shall be not less than the official stock market price on the day preceding the day on which the purchase transaction is carried out, decreased by 20%, and not more than the official stock market price on the day preceding the day on which the purchase transaction is carried out, increased by 10%, subject to the application of the conditions and terms set forth in Article 5 of the MAR Regulation and Article 3 of the Delegated Regulation;
- (ii) the disposal price of each share shall be not less than the official stock market price of the stock on the day preceding the day on which the sale transaction is to be carried out, less 20%, subject to the application of the conditions and terms set forth in Article 5 of the MAR Regulation and Article 3 of the Delegated Regulation.

However, the limitation of consideration in the event of disposal will not apply in the event of acts of disposal other than sale, and in particular in the event of exchange, swap, contribution, assignment or other act of disposal of treasury shares carried out in the context of acquisitions of shareholdings or implementation of industrial projects or other extraordinary finance transactions involving the assignment or disposal of treasury shares (such as, by way of example, mergers, demergers, issuance of convertible bonds or warrants etc.), or in cases where shares are granted to directors and/or employees of the Company (e.g., to service the Company's share-based incentive plans). Different criteria may be used in such cases, in line with the purposes pursued and taking into account the Market Abuse Regulations, Permitted Market Practices, as well as the indications of Borsa Italiana S.p.A and Consob recommendations.

The limit of consideration in case of purchase will not apply if extraordinary circumstances occur in the market.

6. Methods through which purchase and disposal will be made

Purchases will be made on regulated markets, guaranteeing equal treatment among shareholders and in accordance with operating procedures identified from time to time by the Board of Directors among those established in the market organization and management regulations that do not allow the direct matching of trading proposals for purchase with predetermined trading proposals for sale, in accordance with the provisions of Article 132 of the TUF and Article 144-bis, paragraph 1, letter b), of the Issuers Regulation. Purchase transactions may also be carried out through the use of tender offer procedures pursuant to Article 144-bis, paragraph 1, letter a), of the Issuers Regulation, subject to a resolution by the Board of Directors in accordance with current regulations. Treasury shares may be purchased by means other than those indicated above where permitted by the legal or regulatory provisions applicable from time to time at the time of the transaction (by way of example, but not limited to, through the reverse accelerated bookbuild procedure or other similar accelerated mechanisms).

The acts of disposal may be carried out even before having exhausted the purchases and may take place on the market or as consideration in the event of an exchange, swap, contribution, assignment or other act of disposal of treasury shares carried out in the context of acquisitions of shareholdings or implementation of industrial projects or other extraordinary finance transactions involving the assignment or disposal of treasury

shares. The Company may also employ the shares for market liquidity supportive transactions in order to facilitate trading in the securities themselves at times of low liquidity in the market and to facilitate smooth trading. It is proposed that disposal transactions may be carried out in whatever manner is deemed necessary or appropriate by the Board of Directors for the pursuit of the purpose for which the transaction is being carried out (by way of example, but not limited to, through the accelerated bookbuild procedure or other similar accelerated mechanisms), in compliance with the legal or regulatory provisions applicable from time to time at the time of the transaction.

The authorization request concerns the Board of Directors' authority also to carry out repeated and successive purchase and sale transactions (or other acts of disposal) of treasury shares on a revolving basis, including for fractions of the maximum authorized quantity.

The company may delegate to a specialized intermediary the task of coordinating and executing transactions in treasury shares.

The Board of Directors will act in compliance with the disclosure requirements set forth in Article 144-bis, paragraph 3, of the Issuers Regulation, as well as the disclosure requirements set forth in the Market Abuse Regulations and the aforementioned Permitted Market Practices.

7. Further information

With particular reference to the request for authorization to purchase treasury shares, it should be noted that, at present, this request is not preordained for operations to reduce the share capital through cancellation of the purchased treasury shares.

It should also be noted that, pursuant to Article 44-bis, paragraph 1, of the Issuers Regulation, treasury shares are normally excluded from the calculation of the share capital on which the relevant shareholding is calculated for the purposes of the total takeover bid obligation, provided for in Article 106 of the TUF. This provision, however, pursuant to Article 44-bis, paragraph 2, of the Issuers Regulation, does not apply if the exceeding of the thresholds under Art. 106 of the TUF results from purchases of treasury shares made, even indirectly, by the Company in execution of a Shareholders' Meeting resolution that has also been approved with the favorable vote of the majority of the shareholders present at the meeting, other than the shareholder or shareholders who hold, even jointly, the majority shareholding, even relative, provided that it exceeds 10% of the share capital (so-called whitewash). Therefore, it is hereby pointed out that, in the event that the shareholders' resolution authorizing the purchase of the Company's treasury shares is approved with the majorities provided for in the aforementioned Article 44-bis, paragraph 2 of the Issuers Regulation, the treasury shares purchased by the Company in execution of said authorizing resolution will not be excluded from the share capital (and will therefore be counted in the same) for the purposes of calculating whether one or more shareholders have exceeded the relevant thresholds for the purposes of Article 106 TUF.
